

 JOSH DESIGNING INTELLIGENT SPACES

A DESIGN FIRST PLATFORM

Home Intelligence for Modern Design

Josh brings lighting, shading, climate, entertainment, and security into one unified experience designed to complement the architecture of the home. Through natural voice, touch, AI, and thoughtfully designed interfaces, technology becomes simpler, more intuitive, and more connected to the way people live.

CATEGORIES OF CONTROL

JOSH DELIVERS

Supporting Better Design from the Start

1. LESS VISUAL CLUTTER

Minimal, flush-mounted, and design-conscious control options reduce wall clutter and preserve the integrity of the architecture.

2. A COHESIVE CLIENT EXPERIENCE

Lighting, shading, entertainment, climate, and privacy settings work together through a single, simple interface rather than multiple disconnected apps and remotes.

3. EARLY COLLABORATION

Josh works best when technology is considered alongside lighting, millwork, furnishings, and daily living needs from the beginning of the design process.

4. FLEXIBLE CONTROL

Clients can control the home by voice, app, touchscreens, remotes, or keypads—without relying on visible consumer devices throughout the space.

5. A FUTURE-READY HOME

Josh is a premium platform that can evolve with the homeowner's lifestyle while keeping the experience simple and refined.

CORE STRENGTHS

Why Josh?

Design First means architectural hardware and discreet control options integrate beautifully into the home.

Unified Control brings lighting, shading, climate, entertainment, security, and more together on a single platform.

Natural Intelligence makes voice, touch, and app control feel intuitive and personalized.

Privacy-Focused means every intelligent interaction is powered by a purpose-built AI platform designed for the home, with privacy and discretion at its core.

JOSH NANO

Designed to Disappear

The first architectural microphone, Josh Nano blends seamlessly into a wide range of materials, finishes, and interior styles.

With room-aware voice control, homeowners can interact with their home naturally without adding visual clutter to the space. Paintable covers allow Nano to integrate even more seamlessly into surrounding surfaces.

Available in Coral White, Jet Black, and Palladiom White.

AI-POWERED HOME CONTROL

JoshGPT 3.0 delivers smarter, more seamless control experiences.

LIGHTING

Think of a color palette or motif to set any vibe without having to create preset scenes.

"Hey Josh, set the lights to the colors of a Caribbean sunset"

MUSIC

Simply describe what you would like to play and Josh will understand the request.

"Hey Josh, play that song about drinking piña coladas in the rain"

SURVEILLANCE

Instantly receive detailed descriptions and view high-quality live streams with Josh Vision's advanced camera analysis.

"Hey Josh, analyze the front door camera"

SPEAK NATURALLY

Josh understands natural speech;
just say what's on your mind.

Josh understands natural speech, allowing homeowners to interact with the home conversationally instead of memorizing rigid commands.

"OK Josh,

"Open the shades halfway and watch Netflix"

"Lock the front door and dim the lights a little bit"

"Listen to Taylor Swift and make the lights magenta."

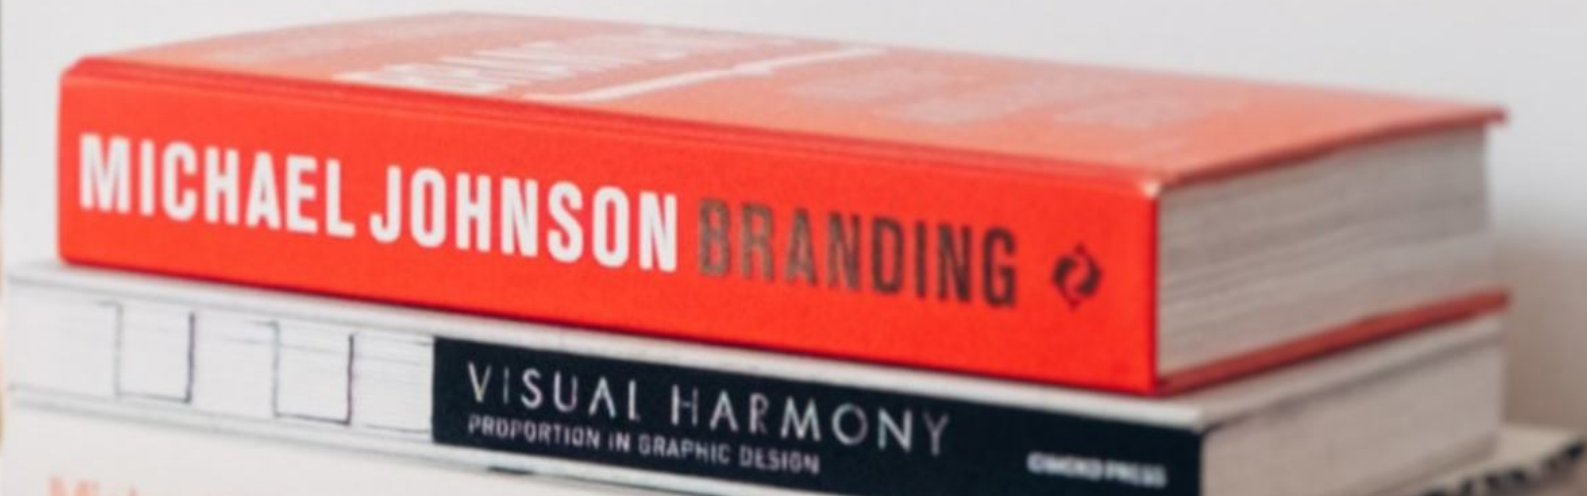

LUTRON + JOSH.AI

One Keypad, Infinite Potential

By combining tactile control with Josh voice intelligence, a single keypad becomes far more powerful and flexible.

Homeowners can access lighting scenes, shading, music, and nearby devices through beautifully integrated controls that reduce wall clutter while preserving a clean architectural aesthetic.

JOSH APP

A Unified Experience for the Modern Home

Designed to feel as intuitive as the spaces it controls, the Josh App brings every part of the home into one beautifully simple interface.

Navigate effortlessly between rooms, devices, and scenes while customizing settings, creating automations, and personalizing the experience over time. Whether at home or away, the entire property remains connected and within reach.

JOSH TOUCHSCREEN

Environmental Control

Designed to disappear into the architecture while keeping the home within easy reach, Josh Touchscreen provides elegant, room-by-room control through a clean, intuitive interface. Create layered lighting experiences by adjusting brightness, color temperature, shading, and scenes with ease.

Available in two sizes and multiple finishes with wall-mounted and tabletop configurations to suit a wide range of spaces.

JOSH EDGE

Designed for Everyday Living

Designed to feel instantly familiar, Josh Edge brings together tactile control, natural voice interaction, and personalized room experiences in one refined remote.

Quick-access buttons, customizable controls, and room-aware intelligence make it easy to adjust lighting, media, shading, and more while complementing the aesthetic of modern living spaces.

DESIGNED WITH INTENTION

Privacy, Built In

Josh is built on a foundation of privacy and trust, giving homeowners greater control over how their data is used within the home.

Unlike many consumer platforms, Josh does not sell personal data for advertising or marketing purposes. Wake word detection happens locally within the home whenever possible, while activity history and stored requests can be reviewed or cleared at any time.
